EMBRACING THE CHILDREN OF THE SOUTH AND NORTH BRINGING THEM JOY IN CHALLENGING TIMES

PROJECT COST

In these challenging times, as Israel faces war and a relentless wave of attacks aimed at undermining its security and even its existence, Keren Kayemeth LeIsrael – Jewish National Fund (KKL-JNF) has launched a series of educational and recreational activities for the children of the south and the north, providing them with much-needed respite.

The activities, taking place at several locations across the country, include musical shows, arts and crafts, guided sessions and more, providing a nurturing and empowering environment for children and families who have been evacuated from the South and the North because of the war.

We understand that these families, and especially those from the south, have faced unprecedented challenges and horrors. We believe that every child deserves the opportunity to grow and find solace, even in the most challenging circumstances.

We understand the importance of taking a break and finding joy amid challenging times. Our emergency respite activities are designed to provide relaxation, fun, and a sense of normalcy. Children and families can enjoy a broad array of activities to unwind and bond.

Together, we can create an environment where children can continue to grow and find joy, despite the circumstances.

KKL-JNF invites you to join us and support this journey toward resilience and solace for the children of Israel.
