# Help Build the United Hatzalah Municipal Emergency Command and Relief Center in Sderot

#22459

A critical lifesaving facility bringing emergency medical services, disaster response, and community support to Southern Israel

# United Hatzalah: First to Respond, Always There

Founded in 2006, United Hatzalah is Israel's largest all-volunteer emergency medical organization. With over 6,500 trained medics deployed across the country, its teams provide immediate, lifesaving care, **free of charge – 24/7**, including Shabbat and during holidays.

During the tragic events of October 7, **over 1,500 volunteers** rushed to Israel's south to assist under fire, saving thousands of lives. Within days, United Hatzalah had treated **over 3,800 wounded** and completed **800 hospital evacuations** via ambulances and helicopters – in close coordination with the IDF.

During **Operation Rising Lion**, United Hatzalah's teams are always at the scene of disaster, working rapidly to save lives.

# The Vision: A Regional Emergency Lifeline in Sderot

The hub will serve tens of thousands of residents across Sderot and surrounding communities in the Gaza Envelope, in both routine and emergency situations.

To ensure rapid, coordinated, and effective response during mass-casualty events, United Hatzalah plans to construct a **1200-square-meter, three-story** emergency center in Sderot. This center will be:

- **Fortified and missile-proof**, ensuring uninterrupted operations during attacks.
- Home to Israel's **second-largest Emergency Dispatch and Command Center**.
- **A logistics and supply hub** for rapid medical response across the region.
- **A volunteer headquarters and training facility** to educate the next generation of responders.
- A vital link in strengthening **community resilience and trust** in emergency services.

# Strategic Location

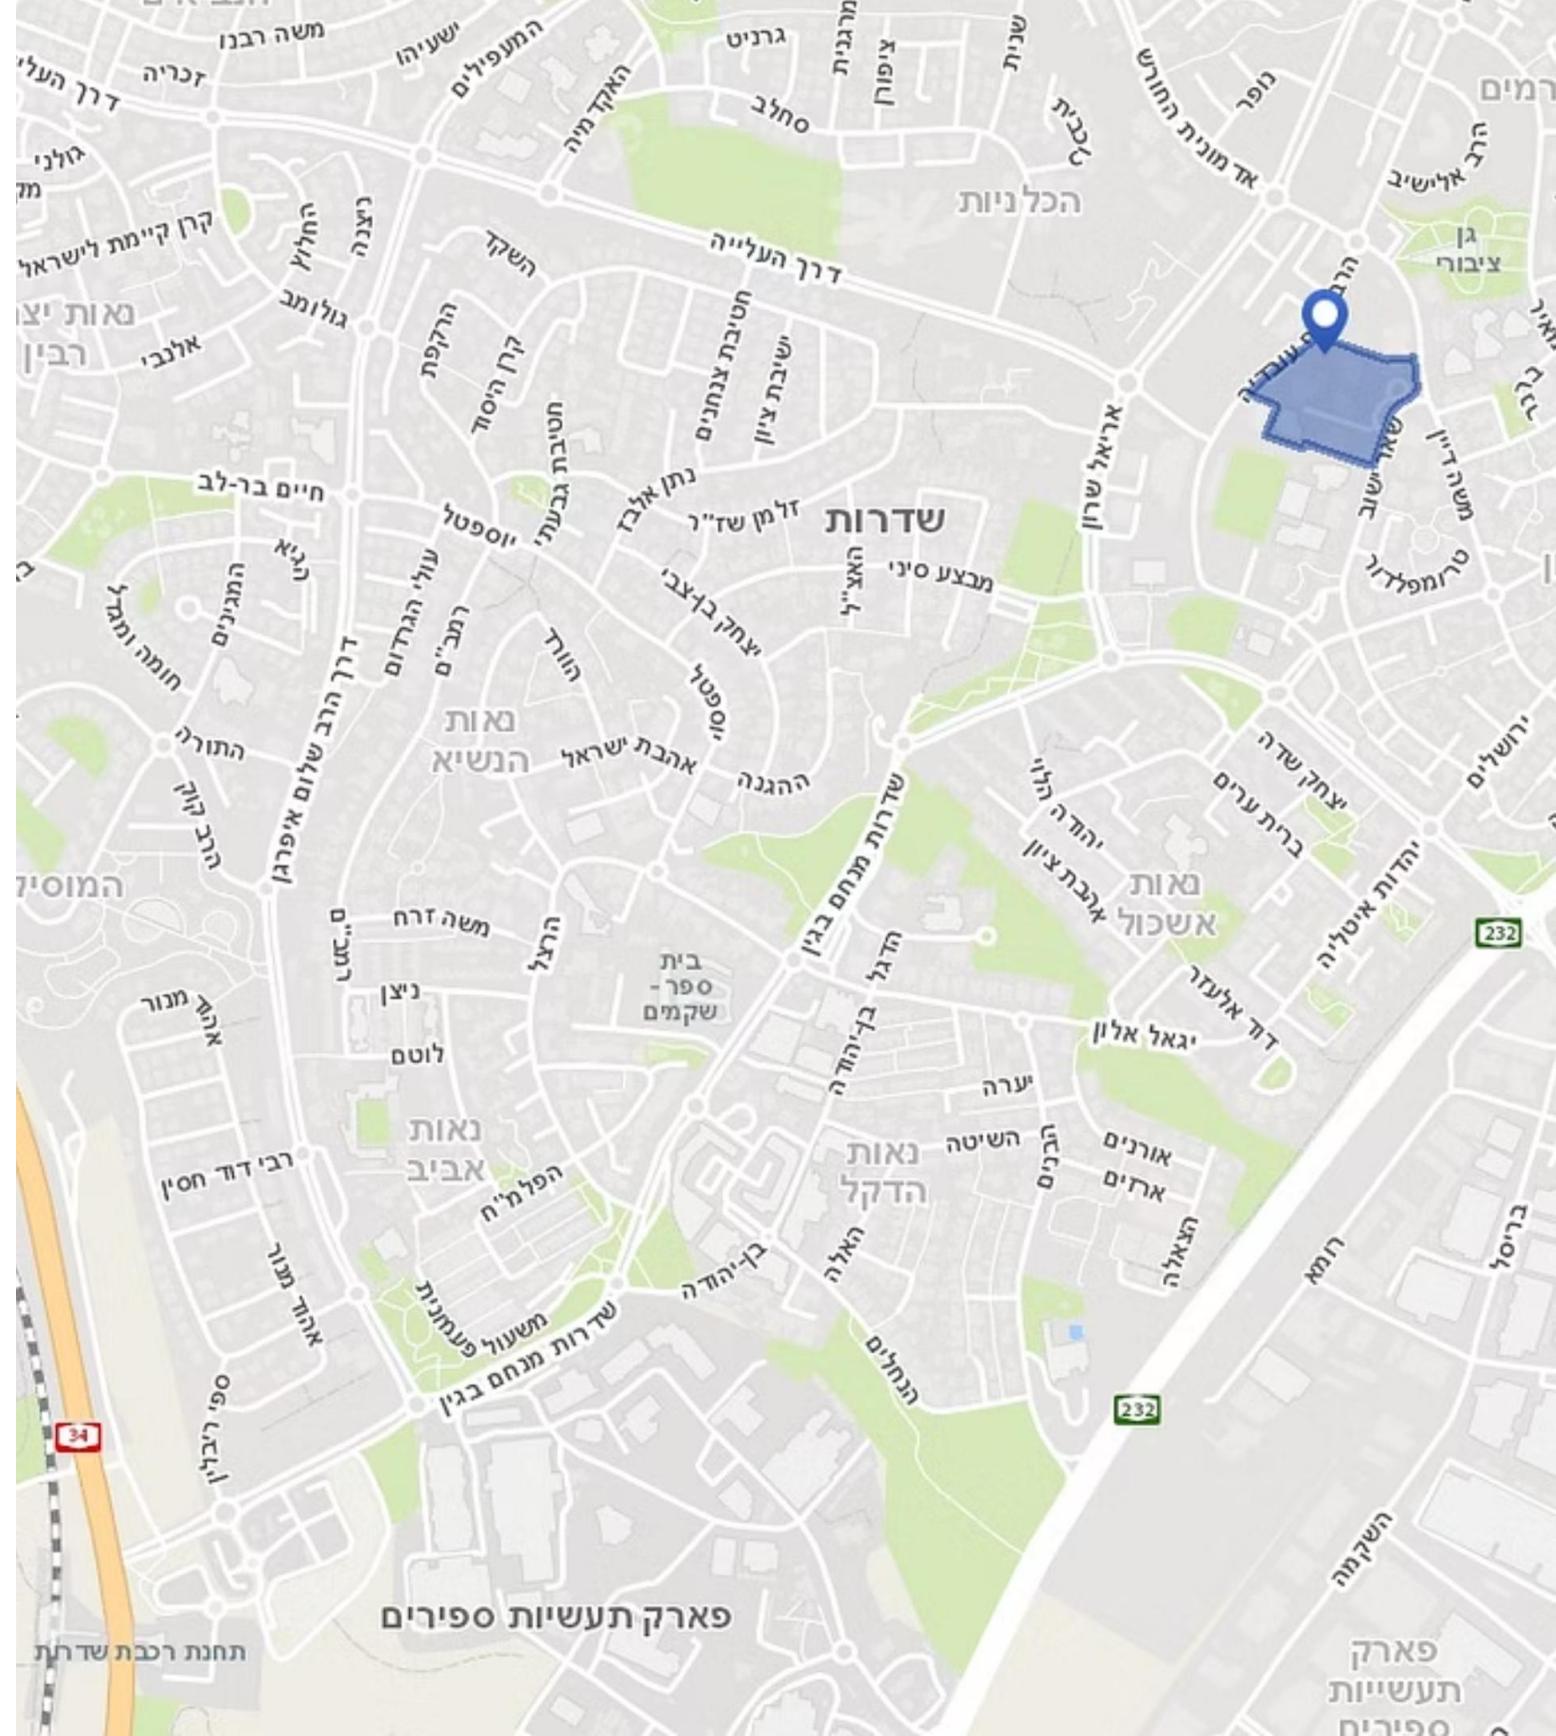

Positioned for rapid emergency response in southern Israel

Central location in Sderot for maximum accessibility

Strategic proximity to critical infrastructure

# Building Exterior Visualization

- 1 Contemporary design balances function and aesthetics
- 2 Resilient construction for security in conflict zone
- 3 Rooftop multipurpose space with panoramic views
- 4 Modern facade designed for durability

# Interior Spaces Visualization

1

## Main Hall

Versatile gathering space for community events and emergency coordination

2

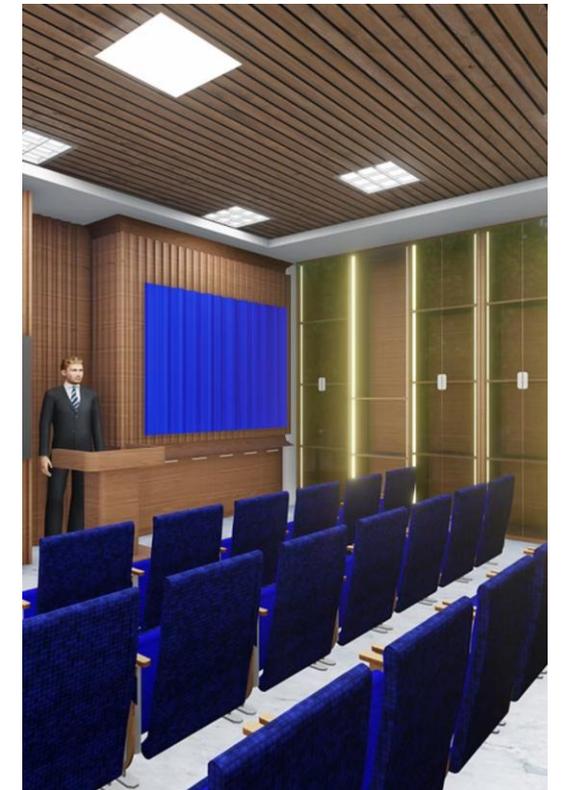

## Auditorium

Modern training facility with multimedia capabilities

3

## Synagogue

A sacred house of prayer and quiet refuge for healing

# Environmental Development

## Integrated Design

Harmonizes with surrounding environment

## Accessibility

Multiple entry points for emergency vehicles

## Green Space

Landscaped areas for responder mental wellbeing

# Basement Operations Center

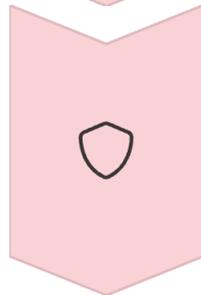

## Call Centers

145m<sup>2</sup> total dispatch area

## Respite Rooms

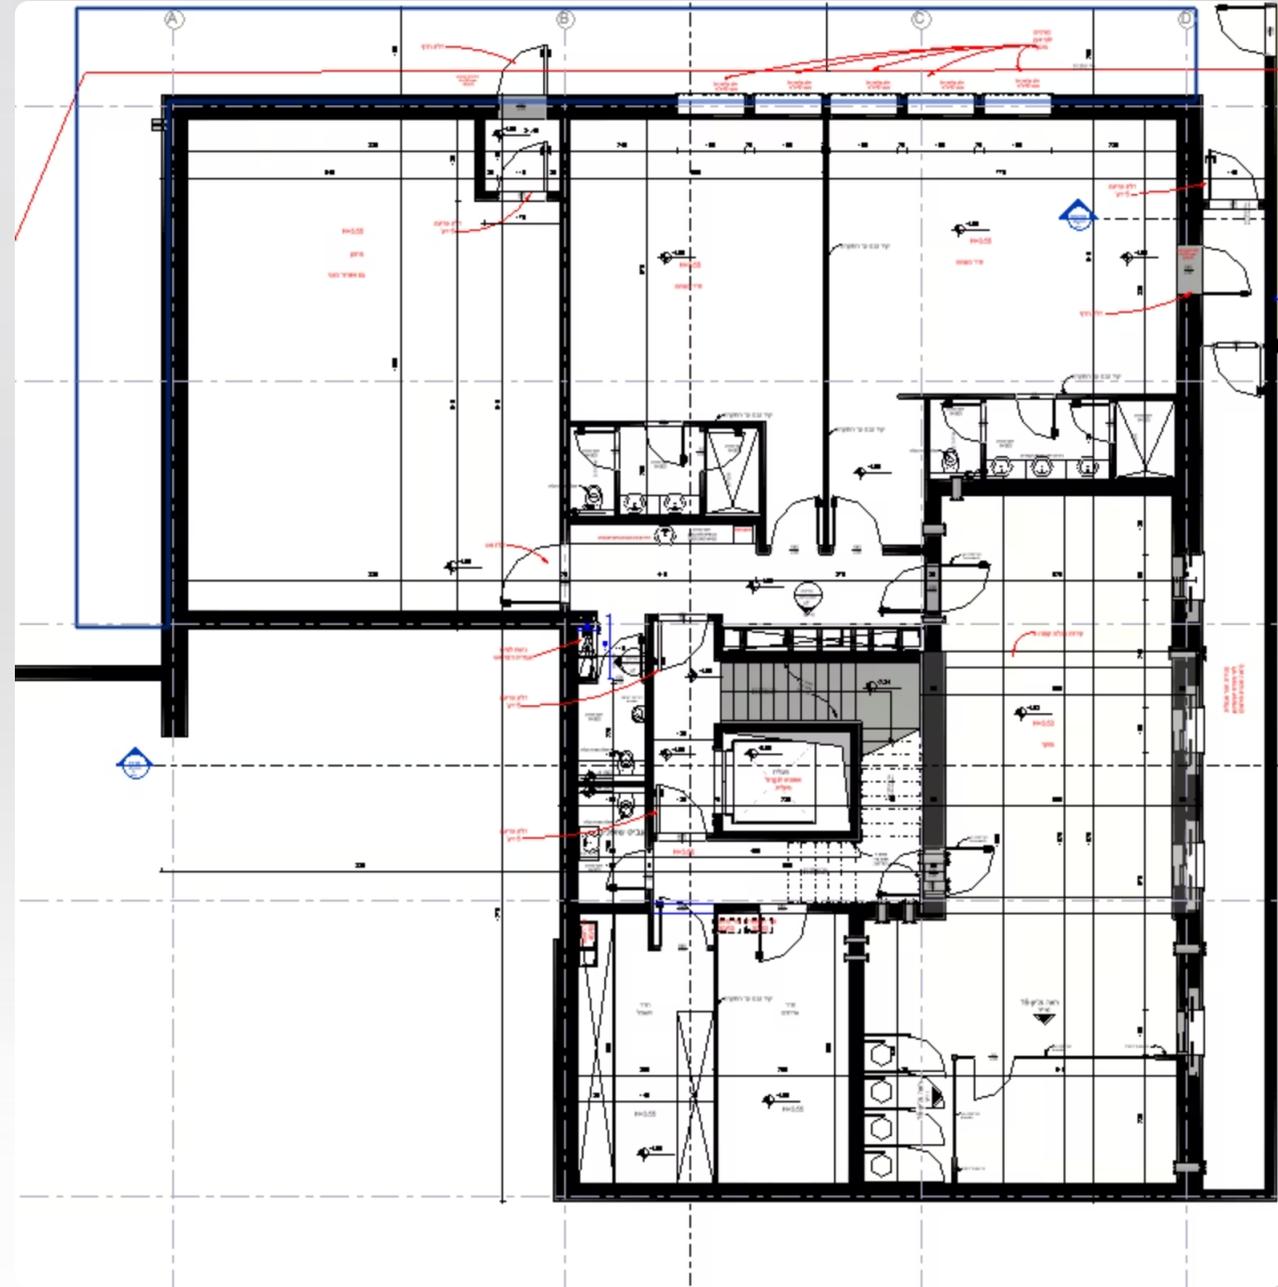

130m<sup>2</sup> for responder recovery

## Safe Room

Protected space during emergencies

Includes 250m<sup>2</sup> storage for emergency equipment and supplies

# Ground Floor

450m<sup>2</sup>

Total Area

Spacious ground level for emergency operations

250m<sup>2</sup>

Main Hall

Central gathering space for briefings

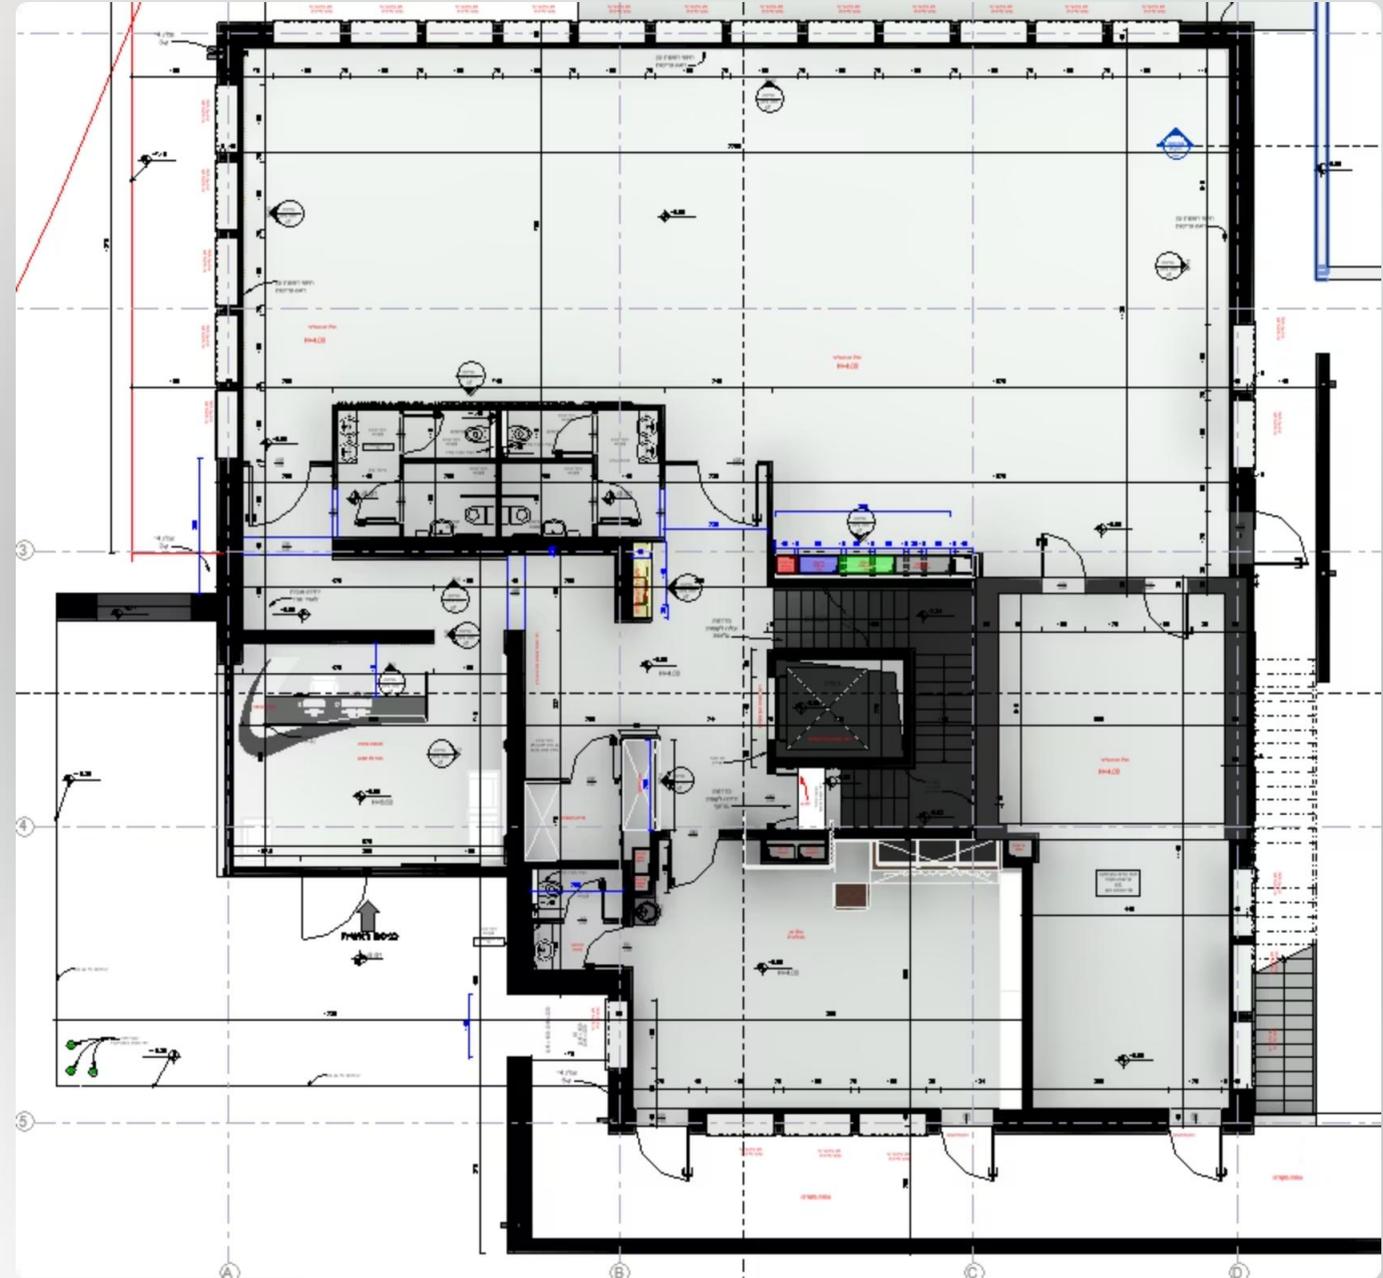

60m<sup>2</sup>

Synagogue

Space for prayer and reflection

Additional features:

Main entrance, kitchen facilities, and full restrooms

# First Floor Training Facilities

3 Classrooms

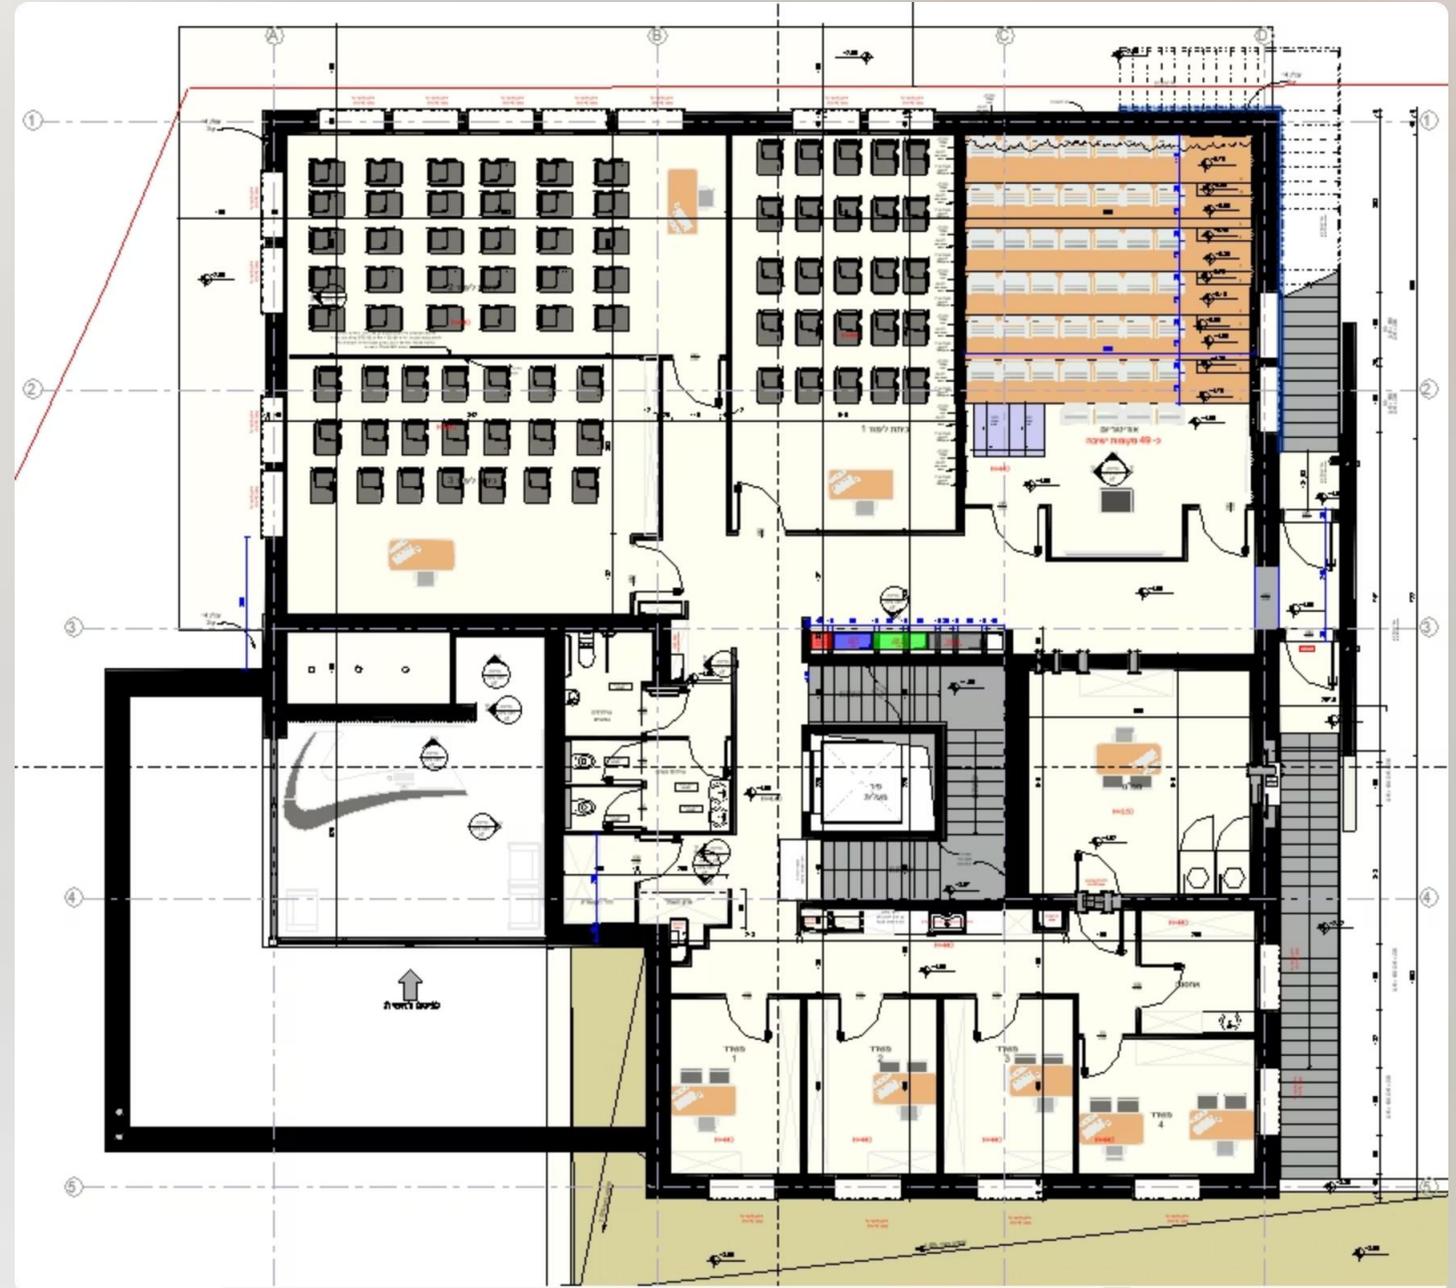

160m<sup>2</sup> total teaching space

Auditorium

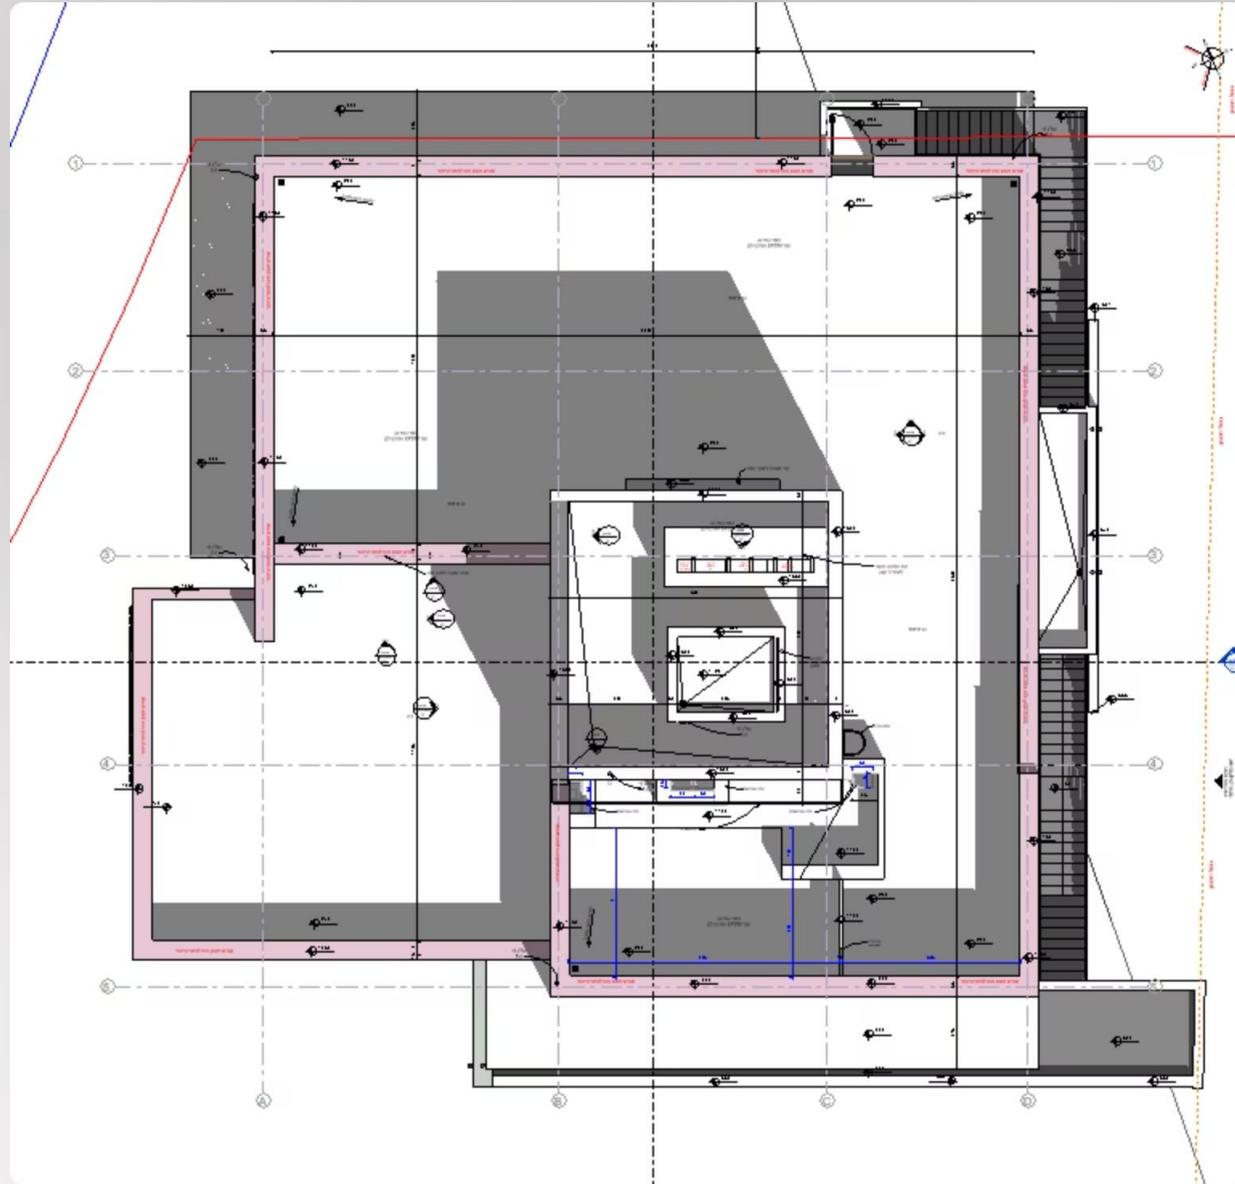

65m<sup>2</sup> for lectures and briefings

Office Space

60m<sup>2</sup> for coordination and planning

This floor provides essential spaces for training, lectures, and administrative tasks, totaling over 285m<sup>2</sup> of dedicated facilities.

# Multifunctional Roof Design

Communications  
Technical systems area

Events Space  
300m<sup>2</sup> multipurpose area

Emergency Access  
Dedicated evacuation stairs

This floor provides essential spaces for training, lectures, and administrative tasks, totaling over 285m<sup>2</sup> of dedicated facilities.

# Join Us in Building a Safer Future in Southern Israel

The following table presents the various giving opportunities and associated costs:

Function	Floor	Total Area (sq.m)	Total Cost (NIS)
Server Center	Basement	22	242,000
Events Hall	Ground	219	2,409,000
Safe Room	First	26	286,000
Auditorium	First	59	649,000
Outdoor Events Yard	Roof	255	2,805,000
